About Mithibai

Established in 1961, Mithibai College of Arts, Chauhan Institute of Science & Amrutben Jivanlal College of Commerce and Economics (Autonomous) is renowned for nurturing talented students. The college values merit-based admissions and instills critical thinking, professionalism, and accountability in students. With significant government grants and top national rankings, Mithibai College emphasizes academic excellence with a human touch. It provides ample opportunities for career growth and extracurricular achievements, producing successful graduates in diverse fields.

About Department of Computer Science

Mithibai College's Computer Science Department was established in 1999. It offers B.Sc Computer Science, M.Sc Computer Science, and M.Sc Data Science and Artificial Intelligence programs. Currently, it caters to over 200 students, focusing on producing skilled computer professionals with managerial abilities and research collaborations with industries. The department adapts to emerging technologies, covering areas like data science, cyber security, artificial intelligence, and data analytics.

About NCSCNIC'24

Conferences are a well-known structure for gathering a community together, both for the official and the non-official and open-ended exchanges of information and trends. The conference will provide an excellent international forum for sharing knowledge and results in theory, methodology, and applications of Computer Science and Information Technology. The Conference looks for significant contributions to all major fields of Computer Science and Information Technology in theoretical and practical aspects. The aim of the conference is to provide a platform for researchers and practitioners from both academia as well as industry to meet and share cutting-edge development in the field.

Track 1 - AI and Machine Learning

- Deep Neural Network
- Pattern Recognition
- Applications of AI and Machine Learning
- Knowledge Representation
- Statistical Inference Learning
- Mathematical Models

Track 2 – Data Analytics

- Social Media Analytics
- Data Science in domain-specific applications
- Forecasting Models in Business and Finance
- Data Visualization Techniques

Track 3 - Nature Inspired Computing

- Ant Colony Optimization
- Bee Colony Optimization
- Genetic Algorithm
- Swarm Intelligence
- Evolutionary Computation
